

Presents

Pituitary Awareness Day

for Physicians and Patients
January 28, 2005

Patients, Physicians and Families

We have an exciting line up of the best and most informative speakers/ educators/ Physicians/ researchers available in North America.

The objective of the “Pituitary Awareness Day” is to help you understand the nature and treatment options available to you. We will discuss medications, the far reaching effects of Pituitary disorders and tumors, hormonal replacements and the latest information on issues form fertility to mental health, joint pain to obesity, surgery to radiology.

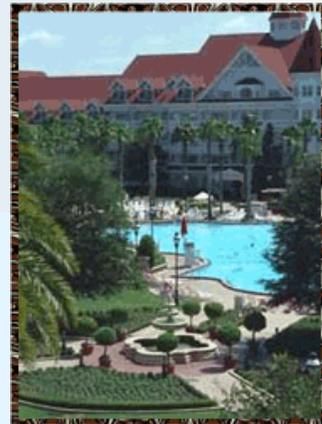

One thing is clear: If you don't take your health seriously, no one else will!!
